## Important Notes:

Please ship the cans back to us in a manner that is **trackable**. We recommend using the Small Flat Rate boxes from the Post Office with delivery confirmation or some type of trackable Ground shipping method. We would hate for your cans to get lost in transit with no proof of shipment. We will not be held liable for empty cans lost in shipping back to us.

Before you ship the empty cans back, remove the Rubber mouth pieces from each can and keep them. Simply twist back and forth gently as you pull it off. Do not unscrew. This will remove a crucial part of the regulator that is necessary for refilling.

Only **TruO2 High Pressure Cans** can be refilled.
